

Message from the President

Hope springs eternal and Spring has arrived early this year. It looks like we can say goodbye to a much welcomed, mild winter. What a difference a year makes!!! Last year at this time, Northeast Ohio was coming out of a Polar Vortex and praying for Spring to arrive. This year it seems that Old Man Winter has passed us by.

Larry Rubin

Spring is also a time of change and renewal, and in that same vein, NOSHE's Education / Programs Committee has emerged and set out this year to provide 27 Continuing Education Units (CEU's) for our membership, covering a variety of topics relevant to our industry. The collective hours also gives us a key metric in our goal of earning Platinum Chapter status from ASHE National, an accolade that we accomplished for the first time last year. In order to achieve 27 hours of educational programming, we will offer an education program nearly every month, with the exception of a short break over the Summer. The programs being offered range from webinars and breakfast programs, to most notably, our Annual Meeting (6 CEU's). The Certified Healthcare Constructor (CHC) and Certified Healthcare Facilities Manager (CHFM) prep courses are each seven credit hours. The Annual Meeting will move downtown this May for the first time and has been expanded to include an evening social the day before the general session (5/11-5/12). The CHC (11/3) and CHFM (5/13) classes are offered by ASHE National for those planning to take the subsequent certification class for one or both of these designations. Across the country, it is difficult to find these courses, so it's a significant member benefit that NOSHE will be making these available again this year.

The Education / Programs committee is always looking for topics and content that is of interest to our membership, so if there is something you would like to see included in an upcoming program, please contact us. Your input is very valuable and much appreciated. The names and contact information of all of our presenters is available on our chapter's website for your reference.

Our goal this year is to join in ASHE's Succession Planning commitment as we are all affected by the challenges of our "aging workforce". Our joint educational programs will help our younger rising stars prepare for their new upcoming roles. Please work on growing our ranks in ASHE/ NOSHE by encouraging your peers and coworkers to join our organization. As industry professionals, it is our responsibility to get this vital training and information to our hospital and healthcare workforces.

Looking forward to another great year!

UPDATE FROM ASHE.....

ASHE will be providing several educational events in our Region this year, with an opportunity to earn CEU's.

- * Managing Infection Prevention During the Construction & Operation of Health Care Facilities™
May 2-3, 2016 | Hyatt Regency Chicago
- * Health Care Construction (HCC) Certificate Workshop™
May 2-3, 2016 | Hyatt Regency Chicago
